〈Program〉

11:00-11:20 Lecture by Senator Nelson

11:20-12:00 Question & Comments

Closing

Chaired by Professor Takao Doi, Astronaut

Translation made by Professor Yosuke A. Yamashiki

〈About Nelson Administrator〉

On May 3, 2021, Senator Bill Nelson was sworn in as the 14th Administrator of NASA, tasked with carrying out the Biden-Harris Administration's vision for NASA.

In 1986, Nelson participated in the 24th space shuttle flight, orbiting the earth 98 times in six days. Since his time in Congress, Nelson has spearheaded NASA's Earth Science program, introduced numerous bills to combat and mitigate the effects of climate change, and has been a vocal proponent of STEM career training and education programs.
