

## List of faculty members of GSAIS

Through the Admissions Assistance Office (AAO) application, please be sure to contact the faculty member you wish to supervise your research and fully discuss your research interests with him/her.

| Faculty member                                             | Field of study                                                                                                              |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Professor<br>SAITO Kei                                     | (1) Green Chemistry<br>(2) Circular Economy<br>(3) Chemistry                                                                |
| Professor<br>SEKIYAMA Takashi                              | (1) International Political Economy<br>(2) Global Environmental Politics<br>(3) International Relations in the Indo-Pacific |
| Professor<br>ZHAO Liang                                    | (1) Informatics<br>(2) Economics & Management Science<br>(3) Sociology                                                      |
| Professor<br>NAGAYAMA Hiroaki                              | (1) Electricity and Energy Policy<br>(2) Management<br>(3) International Development Project                                |
| Professor<br>YAMASHIKI Yousuke                             | (1) Water Resources Engineering<br>(2) Solar Terrestrial System Science<br>(3) Human Spaceology                             |
| Program-Specific Professor<br>YOSHIKAWA Hitoshi            | (1) Computational Mechanics<br>(2) Applied Mechanics<br>(3) Materials mechanics                                             |
| Associate Professor<br>KANAMURA Takashi                    | (1) Energy Finance<br>(2) Sustainable Finance<br>(3) Risk Management                                                        |
| Program-Specific Associate Professor<br>SHINOHARA Masatake | (1) Philosophy<br>(2) Environmental Humanities<br>(3) Urban and Architectural theory                                        |
| Associate Professor<br>DEROCHE Marc-Henri                  | (1) Philosophy<br>(2) Religious Studies<br>(3) Mindfulness                                                                  |
| Associate Professor<br>MIZUMOTO Kenji                      | (1) Health Sciences<br>(2) Social Medicine<br>(3) Infectious Disease Epidemiology                                           |

\* Please note that the following faculty members will not accept third-year transfer students at this time.

Professor IKEDA Yuichi

Professor Ialnazov, Dimiter Savov

Program-Specific Professor USAMI Bunri

Program-Specific Professor SATO Hiroshi

## List of cooperating faculty members

\* Cooperating faculty members are faculty members from other departments within the university who are involved in the administration of GSAIS and the research supervisor of GSAIS students.

| Cooperating faculty member                                 | Field of study                                                                                                                      |
|------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Professor<br>ARAKI Yoshikazu                               | (1) Social Infrastructure (civil engineering, architecture, disaster prevention)<br>(2) Architectural structure<br>(3) Material     |
| Professor<br>IIYOSHI Toru                                  | (1) Educational Innovation<br>(2) Higher Education System<br>(3) Open Education                                                     |
| Program-Specific Professor<br>KUWAJIMA Shuichirou          | (1) Sustainable Humanosphere Science<br>(2) Interdisciplinary Research Management<br>(3) Science, Technology, and Innovation Policy |
| Professor<br>MCLELLAN BENJAMIN-CRAIG                       | (1) Energy science<br>(2) Earth resource engineering<br>(3) Socio-technical Transition Theory                                       |
| Professor<br>YURIMITO Hiroya                               | (1) Life Science<br>(2) Applied microbiology<br>(3) Applied Molecular Cell Biology                                                  |
| Associate Professor<br>HAGIO Shota                         | (1) Motor control<br>(2) Motor learning<br>(3) Computational Neuroscience                                                           |
| Associate Professor<br>FUJITA Daishi                       | (1) Nanotechnology/Materials<br>(2) Nanostructure chemistry<br>(3) Chemical Biology                                                 |
| Associate Professor<br>PACKWOOD Daniel                     | (1) Theoretical Chemistry<br>(2) Data Science<br>(3) Mathematical Science                                                           |
| Program-Specific Associate Professor<br>WAKAMATSU Fumitaka | (1) Cultural Anthropology<br>(2) Food Anthropology<br>(3) Japan Studies                                                             |
